## Westmoreland Cleanways and Recycling

Westmoreland Cleanways and Recycling is a non-profit 501(c)(3) organization that operates a recycling center for hard-to-dispose material, promotes community programs that address the proper disposal of solid waste, supports illegal dump and litter cleanups, and educates the public through presentations, print and digital media. We are funded by the county commissioners, member fees, donations, sponsorships and grants.

## News You Can Use

### 2025 Property Tax/Rent Rebate Program Now Open

The application period for the state’s 2025 Property Tax/Rent Rebate Program is now open for eligible Pennsylvanians to begin claiming rebates on property taxes or rent paid last year.

Income limits increased again this year to \$46,520 for both homeowners and renters. This is due to a 2023 law I supported that calls for adjusting the income limit based on annual increases in the Consumer Price Index. Remember to exclude 50% of Social Security when determining your income. The maximum rebate is \$1,000.

The program is open to residents aged 65 years and older; widows and widowers 50 years and older; and people with disabilities 18 years and older.

Remember – you do not need to pay anyone for assistance to apply for the rebates. Apply online at [my.path.pa.gov](https://my.path.pa.gov), or contact Jill Cooper’s Washington Township/Export office at 724-387-9113 or my New Kensington office at 724-472-4102 for assistance. [Additional information about the program is available here.](#)

### Does Your Home Contain Radon?

January is National Radon Action Month. An estimated 40% of Pennsylvania homes have higher levels of radon than national safety standards, due to the state’s geology. However, residents can perform a simple test to detect this gas, which is considered the second leading cause of lung cancer.

Radon is a colorless, odorless, radioactive gas that occurs naturally from the breakdown of uranium in soil and rocks and enters homes through cracks in the foundation or other openings. High levels of radon tend to be found in basements, but the gas can be found anywhere in the home.

Winter is a good time to test for radon, because doors and windows are generally closed, providing more accurate results. Simple radon test kits are inexpensive and available at home improvement and hardware stores.
